COURSE FEEDBACK

INTRODUCTION TO MANIFOLDS

Question 1. What was your prior exposure to the subject before taking the course?

Question 2. On a scale of 1 to 5, what was your level of interest in the course material prior to taking the course?

Question 3. What material in the course did you enjoy the most? What did you enjoy the least? What would you have done differently in terms of course content? How was the overall pace of the course?

Question 4. How did you feel about the structure of the course and the grading? Would you have preferred the course to be organized differently? Were the weekly problem sets useful in learning the material?

Question 5. How did you feel about the primary textbook used in the course? Did you refer to it often? Did you find it useful? Would you have preferred a different primary text?

Question 6. Feel free to share any other thoughts or suggestions.
